What is ERIC?

The Education Resources Information Center (ERIC) is an online digital library of education research and information that is sponsored by the Institute of Education Sciences (IES) of the U.S. Department of Education. ERIC is an academic database that provides education peer reviewed journal articles, non-peer reviewed curriculum and teaching guides, conference reports, and dissertations.

How do I access ERIC?

Two ways: The first is to log onto the Education LibGuide (libguides.lmu.edu/education) and click on the article tab. ERIC is linked directly from that page.

The second way is to click on the “Research Databases” link on our library homepage and type in ERIC in the search box.
